

## **2025 - THE DEADLY HOLD UP PLAY**

### **The devastating DEFENSIVE hold-up play.**

The hold-up play is a technique that may stop your opponent's dead in their tracks.

The successful hold-up play allows you to cut the lifeline between declarer and dummy and set their contract.

### **The devastating DECLARER hold-up play.**

Hold-up plays by declarer will block the opponent's communication, not allowing them to take their good tricks. Successful hold-up plays will leave you gleeful and the opponents looking at a bad score.

Hope you can join me for this one session on Hold Up Plays and perhaps change your game forever.
